

AirContacts User Guide

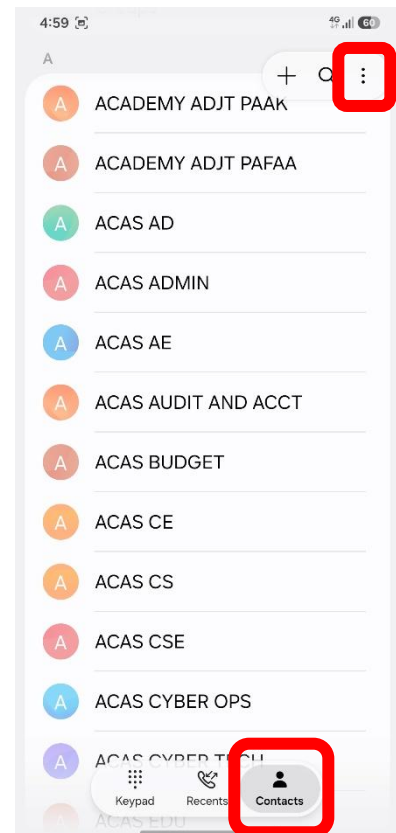

INSTRUCTIONS

1. The app automatically syncs after 30 to 45 days.
2. Hence, there is no need to sync manually.
3. The only case in which manual sync may be performed is if a specific contact cannot be found in the user contacts.
4. Frequent manual sync attempts will cause very high drainage of battery time and life.
5. AirContacts is an indigenously developed App that automatically synchronizes Air Directory (PAFCOM LTE - DEFCOM - AirCom Contacts).
6. Sync Button updates the contacts manually.
7. On initial installation, users are requested to delete local contacts (only the first time).
8. Further help is available by pressing info button at the top right.

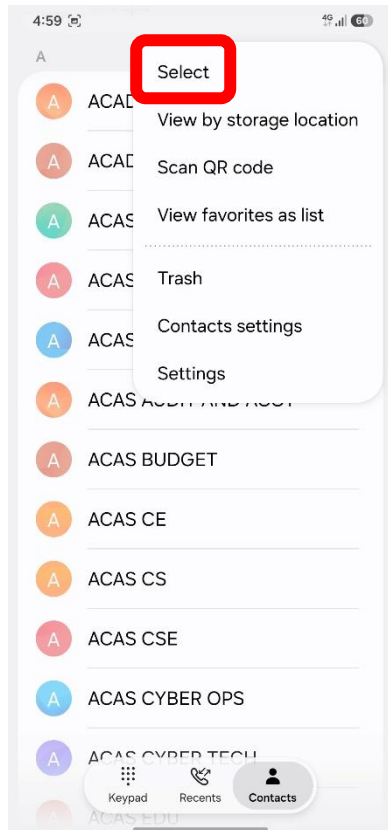

STEPS FOR ONLY THE FIRST TIME

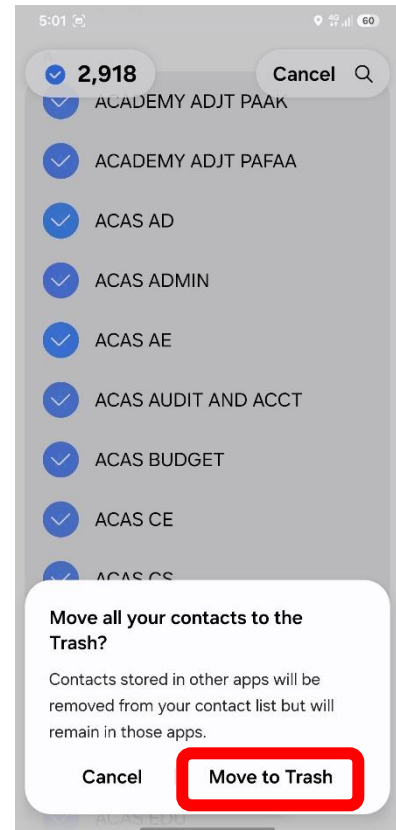

1. Launch **Phone App** from the App Menu.

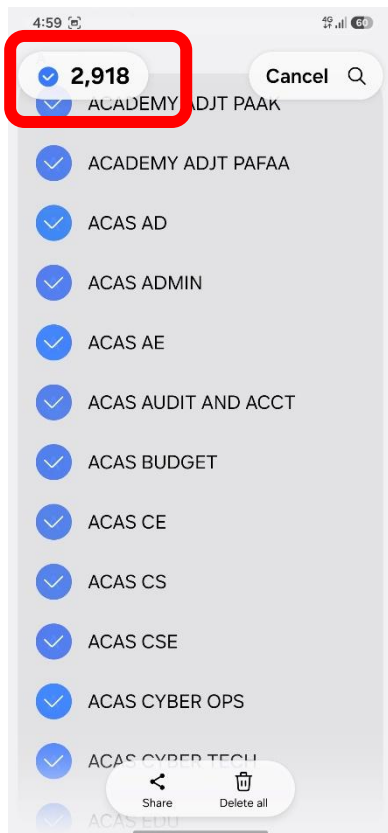

2. Open **Contacts tab** in Phone App,
and tap on  in the top right corner.

3. Tap on **Select**.

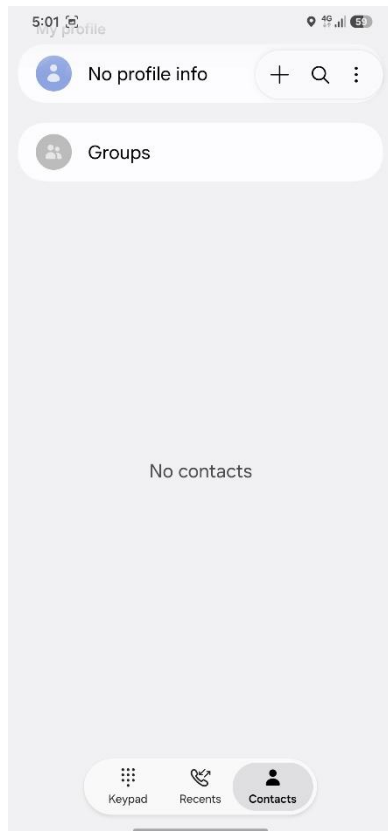

5. Select **Move to Trash**.

4. Select ALL Contacts and Tap on **Delete All**.

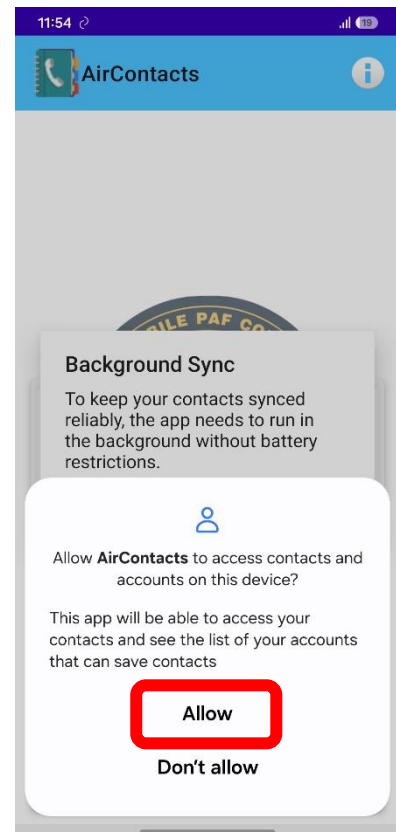

6. The old phone contacts will start getting deleted.

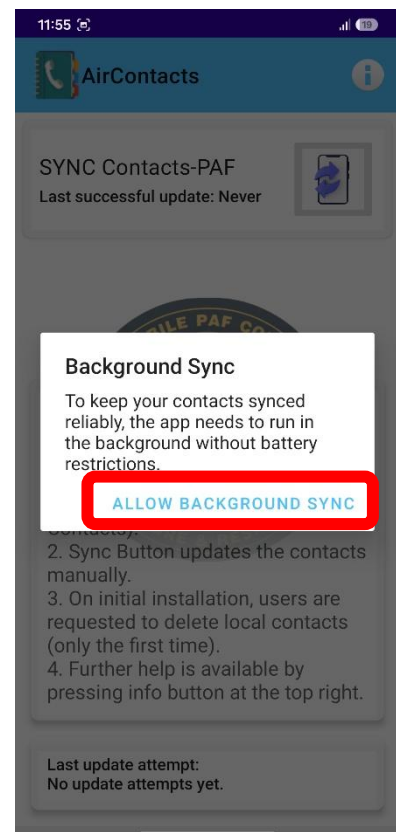

7. At the end, there will be no local contact in the phone.

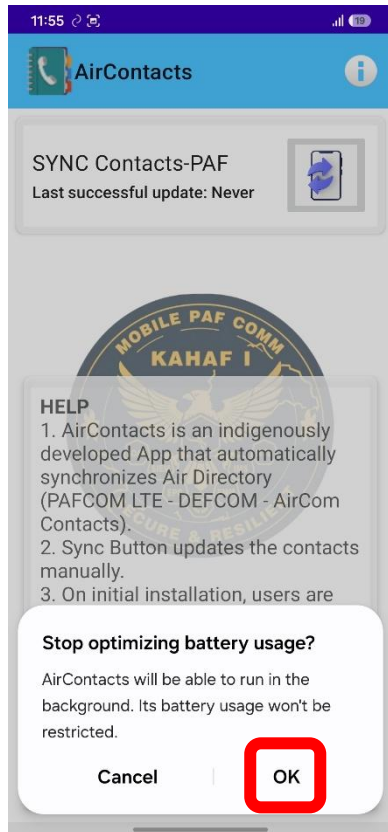

8. Launch **AirContacts App** from the App Menu.

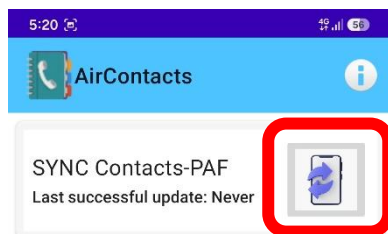

9. **Allow** Contacts permission to the app

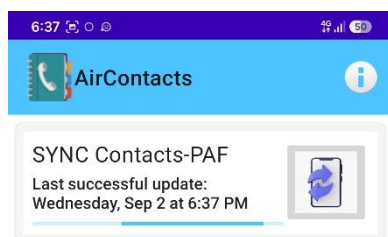

10. Tap on **ALLOW BACKGROUND SYNC**.

11. Tap on **OK** to Stop optimizing background usage. This is necessary to allow the app to continuously keep syncing the contacts when required.

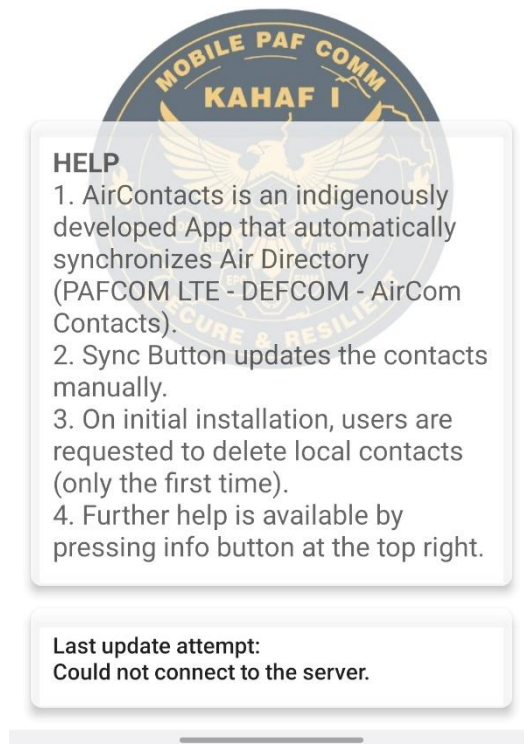

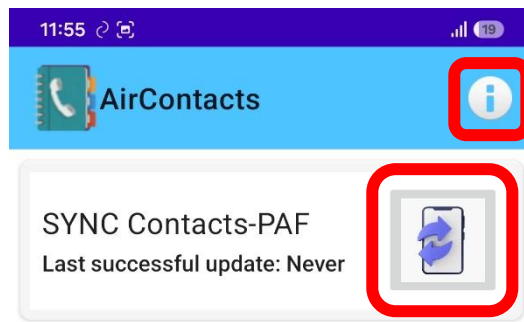

12. Tap on **Sync Button** to start syncing the PAFCOM LTE Contacts

13. The contacts will start syncing in the background.

NORMAL APP USAGE

1. Tapping on  button will initiate a manual sync for complete contacts directory. Manual update should only be initiated in case of non-updated state of a specific contact. Frequent pressing of the sync button will significantly affect phone's battery time and life.
2. App information page can be accessed by tapping on  button in the top right corner of the main page.
3. In case of any assistance, LTE Section, No 1 Comm Wing may approached.

AirContacts

Version 1.0.18PAF

AirContacts keeps your PAFCOM
LTE contacts synchronized on
this device.
