

AirContacts User Guide

INSTRUCTIONS

1. The app automatically syncs after 30 to 45 days.
2. Hence, there is no need to sync manually.
3. The only case in which manual sync may be performed is if a specific contact cannot be found in the user contacts.
4. Frequent manual sync attempts will cause very high drainage of battery time and life.
5. AirContacts is an indigenously developed App that automatically synchronizes Air Directory (PAFCOM LTE - DEFCOM - AirCom Contacts).
6. Sync Button updates the contacts manually.
7. On initial installation, users are requested to delete local contacts (only the first time).
8. Further help is available by pressing info button at the top right.
